\*\*\*\*\*

We are on the thresh-hold of 1962. who knows what it will hold for those of us who have now spent a great deal of time in this research programme. of the UFO.?. From all around the world there comes predictions, some very dire in their portent , others not so drastic. and others almost optimistic. What of the general trend of the work of research ? have we progressed. generally around the world . ?.

Reviewing it as I see it from a wide coverage from countries everywhere. there has definately been a falling away of interest in sightings etc. and that form of investigation. and a stepping up of groups which have begun to make a religion of it. or of phsyhic. or metaphysical investigation into the Hq? Why? and Where?.

This has caused many groups to fold up. in fact not a few have done this during 1961 . magazines and Newsletter publishers of Saucer Material have closed up some for financial reasons. others for lack of support in other ways. one thing has been clear that . as in other years. those who wanted to improve their journals and involved themselves in higher costs have found that they had bitten off more than they could chew. it is for this very reason that this magazine while very keenly desiring to go into print and make a much more acceptable magazine. after one sad such experience has remained on its lowly level. better to keep going than fold up . has been a maxim we have followed. and so far it has paid off. our circulation despite terrible upsets at times of supporters ( other groups) failing us. has still managed to keep afloat and more increase, despite those losses, in circulation .

The appreciation of our magazine and its matter . has brought us very high comments from readers and other publishers. despite the all too obvious defects which the Editor has been so conscious of. in its typing and poor English at times. Much of this is due more to haste and lack of help than . purpose.

So much for this. to return to the question. What of the future ?. Who can tell. Judgeing by the calls for his opinion by the press, groups , societies and individuals, etc, the Editor humbly suggests that the days ahead are not going to be rosy ones. and that the more serious side of saucer work may reveal some very startling things as we progress. for it is very certain that. pressure is being out on by the Silence Group. in every phase of life not only the saucers for their activities. and very much more than this little field of pndeavour .

Things are happening and leaks are slipping out of many strange things going on which have been withheld from the public for a long time. Antartica being a very prominent case. as is also what is going on down in South America. in political lines . secret scientific. experimentation in many highly comlicated subjects such as Parapsychology. fourth dimensional . electronics. of sound and light all these and many more will soon have their effect on the world.

Religion, Econo,ics. International affairs all are now in the melting pot. and one does not have to be a prophet to see. the great disturbed chaos that will be the outcome of all this final stage of this present ahe , and were one to let all this overweigh his sense of judgement dark indeed would be the

dark of the future. but one must look beyond the dark skies and realise that even if not visible at present to the normal eye. there IS a NEW DAY AHEAD. but that it cannot be reached or achieved . or entered into. until the old dross of this final dregs of the old had been "CLEANSED" away.

The years ahead in the Editors opinion will be very drastic indeed for those who have made material gain their goal. in fact even the best of those who have endeavoured to make some form of spiritual basis their foundation, will find that many of their much cherished dogmas and creeds may well be swept away overnight its not going to be easy to take evn for many religious folk. who faith is in in a book. creed, organisation of human leader. be he of the past or the present. for the only foundation which willstand the test of the days ahead. is that of the possession of HIM who their books , creeds, dogmas etc speak of. for despite it all . and the oncoming overturning and change which lies ahead. JEHOVAH GOD STILL REIGNS. and so long as we do not try to fence HIM in to OUR creeds , our dogmas. and realise that we cannot limit the Holy One. and are willing to place our faith in His ability to see us through. it. then we will find that the future indeed has a silver lining. after the storm. The time when man could put things right himself. . has now long ago reached the point of " no return ". his scientific success have all been for destructive purposes. . In the past this only affected himself and the world around him . Now it has reached the stage where he can interfere with the galaxy and even the stability of his Universe around him. Now he has built another Tower of Babel. and like his predecessors will have to be checked. then it caused CONFUSION. as it will again. but out of the confusoon will come a New Day .

God HAS A PLAN. for this end of the Age. and the New one to come.

It depends on us how we fit into it. or how we rebel against the changes needed to establish it. as to what effect it will have on us. and our future.

If one asks for my advice I would strongly suggest . Place no value at all on the material luxuries. more than the necessary needs of living a simple life Eat and use the simple foods. the more natural the better. , get used to being able to do WITHOUT luxuries. , it wont be so hard then when they are swept away overnight .

The next thing is. Must we flee to some place of refuge. ?.

Many programmes for this have been set up. evn townships are being built. colonies started to flee to. This can only be valueable if there is not the basic compulsion of fear. abd escapism . FAITH not fear must be the guiding prnciple. for its sure if you are running away from something in an escapist attitude you will find it still there when you get there.

I am certain of this . that if we DO have to be guided to such places . there will not be a compelling force of fear in our motives but a deep peace within which will guide us where and when we have to seek such . in fact the trusting soul may not even be conscious he is being guided , but his will is so much immersed in the Plan of God. that he will be there at the right place and time where he has to be. the urge will come for him to go. and he will obey.

Beware of human schemes for this. kindred souls will be aware of a sense of harmony and purpose. and if needs be. in case of extreme danger. God has never failed to send his messengers. at the RIGHT time and direct them to the RIGHT place.

I make no apologies for the trend of this editorial. this is a free magazine . and an open minded one. you may disagree violently with what has been said. that is your privilege. but so long as this magazine remains in the hands of this Editor. it will express itself in such lines as he knows the majority of his readers are thinking. ....It's all up to you.

" THE MEANING OF THE AQUARIAN AGE "

BY. YUL VERNER .

Ever increasingly do we hear about the Aquarian Age, Aquarian vibrations, Aquarian people, and of Movements, books and Teachers devoted to the study of the Aquarian way of life.

Just what is the Aquarian Age anyhow ?.

I will try to answer this question step by step .

Through the relative motion of the Earth. and the Sun , it appears, as if the Sun moved on a path through the constellations of the heavens. The ancient astronomers or astrolgers divided this path he called the Zodiac into twelve parts corresponding to twelve of the principal equatorial constellations, Thus the Sun moves through the signs of Aries, Taurus, Gemini, Cancer, Leo, Virgo , Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces, once a year , staying in each sign once a month .

Now just as the Earth moves in an orbit around the Sun, the solar system as a whole moves around a greater centre. It takes the solar-system about 26,000 years to complete its orbit . Again similarly as the Earth's year is divided into twelve parts corresponding to the twelve signs. so the year of the solar-system is also divided into twelve parts according to the same signs, but in reverse order.

Thus Pisces, Aquarius, Capricorn, etc.

At the moment the solar-system is at the end of the Piscean Age. and about to enter the Aquarian Age, see diagram No.I.

No date can be given when man first discovered or was given knowledge of the influences from space. . According to Astrology certain sectors of the sky. coinciding with the signs produce certain conditions and influences. upon life

Mark well , these influences do not determine us for we have a free will, but they give us a set of dispositions through which we express. By passing into the Aquarian Age we can expect conditions and influences at work that are basically different from the present Piscean Age, in which we now live and express.

However, the entry into the Aquarian Age is not merely an astronomical fact with consequent astrological qualities over which no fuss would normally arise since the transition would be gradual. The Great thing is the place allotted to the Aquarian Age in God's Plan. Apparently , God planned to evolve mankind to the most suitable sequence of vibrations, for the Aquarian Age satisfies what is prophecied about that age, through the Bible the Aquarian Age is better known as the Millennium. - a period of a thousand years, when Christ will head the Kingdom of God on Earth,

Why an Age of 1000 years.?.

This has been a great puzzle for prophecy students And now I claim the Millenium is the Auarian Age! How can one fit 100 Years into an astrological age of 2160 years. ?. I have hinted at the solution of this problem in my other articles, viz, "The prophecy of the Sun of Justice" ( see last edition ) and the "Prophecy of the New Heaven and a New Earth "

To put it briefly: the whole solar-system will undergo a dramatic change in that it will become binary system with the entry into our solar-system of another sun - "The Sun of Justice". This will cause all the planets to move further out to new orbits. Consequently the periods of revolution of the Earth in its new orbit will be different. The year of the Earth will then be about twice as long as at present. From this we can now understand why the Millennium occupies the same period of time as the Aquarian Age, and hence what is prophesied about the former tallies very well with what the latter signifies.

The Aquarian Age is fixed to begin about 1994 A.D. The Piscean Age of 2160 years began about 165 B.C. from the cleansing of the temple - and will last till 1994 A.D. But no age ends and begins abruptly at a certain point. There is a period of overlap with increasing influences from the neighboring age. We have now entered the culmination period, which is framed by great planetary conjunctions. See Diagram No. 2.

Those who know prophecy notice that the cycles of evolution in God's plan also determinate in the last decade of this century.

Thus the covenant cycle beginning with Abraham, about 2000 B.C., is fulfilled with the establishment of the Kingdom of God 4000 years later. The second Exodus will be enacted 3500 years after the first Exodus taking place 1500 years B.C. Further the seven times of the Gentile domination plus a life span of man, starting from about 600 B.C. again gives us the end of this century as the closing time of the present epoch of evolution.

Having settled the chronological problems pertaining to the Aquarian Age, let us now in the light of what we know from Astrology, Revelations of the Space People, Prophecy and overlapping influence, construe what the Aquarian way of life is like and compare it with the Piscean way of life, and from this gain an understanding of what the new age means.

The keynote for the Piscean Age is "belief". This means that the Piscean Age provides a fertile field for ideologies, creeds and systems, etc. it can and has been a driving force to achieve good things and as such it is the pillar on which rests the world civilizations today. as well as the glorious individual achievements that are remembered, on the other hand under this key influence people become spiritual and mental slaves. Books and Masters and principles become too all important rather than remaining helpers of mankind. History tells us of both of these aspects.

The keynote for the Aquarian Age is "knowledge" which means that this age has realised what the Pisceans believed or tried to become.

Knowledge can be of course for good or for evil, but to ensure that knowledge is used for constructive ends Christ will reign during this Age.

A wholly wonderful life will be the gift of God to the Aquarians, who will be able to advance individually as well as collectively, because they will enjoy spiritual and mental freedom.

One can love God and his fellow man without ideologies. One can have all the best life offers without creeds. Godwill and understanding are not dependant on masters or books. Friendly people of other worlds assure us the Kingdom of God is a practical reality. Spiritual realization, Service of God and Love of God, and Fellow man are the tenets on which a lasting society must build. These people are willing to help us achieve the Kingdom of God on Earth.

Jeremiah 31: 33 " I will put my Law in their inward parts. "

" 34. " And they shall teach no more everyman his neighbour " Already, for some 150 years, Aquarian vibrations have made themselves felt materially as well as spiritually. For example the modern advancement in science and religion is due to the Aquarian influences. However, since the Piscean conditions still prevail all new knowledge inevitably ends up the Piscean way . Pisceans may respond to Aquarian vibrations i.e. outwardly they will claim to be free and not fettered by doctrines, nor by books or masters , but they unconsciously betray themselves by dressing the new knowledge in the old worn out forms . In actual fact somebodys writings and interpretations hold sway, for Pisceans need authority.

Aquarians on the other hand will be very rational men , they know that true understanding does not come by simply saying Amen , to someone elses claims. Finally , to emphasize the mental evolvement of the Aquarians we quote from the book "Follow your Stars to Success" by June Marsden , Famous Astrologer on page 39. " The outstanding character of the Aquarians... Aquarius, the Water bearer, symbolizes the "Higher Mind" pouring out wisdom. These people have great potential knowledge , are nearly always " ahead of themselves" and are full of inspirations. It is a remarkable fact that of those great names written in the " Halls of Fame " 80 per cent belong to people born under the sign of Aquarius. " .

For diagrams No 1 and 2. see next two pages.

Editorial Note. We welcome again the thoughts of this able writer and student and while perhaps some of our readers who are keen prophetic students may find it hard to accept his claims and especially his chronological interpretation of the Millennium. we are sure that any careful study into such will be well worth earnest consideration. . The editor will welcome any comments or replies for or against this very interesting article.

\* ALBERT BENDER AT LAST TELLS ALL . \*

Borderland Science. says. " We have a recent bulletin from Gray Barker Virginia, telling us that Albert K . Bender has finally turned over to him a complete manuscript story of his ( Benders ) International F.S. Bureau . how he started it , and why he was shut down suddenly in 1953 after receiving a threatening visit from "3 men in black" Gray Barker says . " I do not believe this book will be frightening to other researchers ; it is disturbing but not frightening to me, To some people who have not gone into such research thoroughly, it indeed could be most frightening, It has not made me feel that I should stop doing flyin' saucer research , and I hope it does not lead you to stop. He says that date agreed for release is Feb. 15th 1962. No price or other details are to hand. you must write Gray Barker for further information . Address. Box 2228, Clarksburg. West Virginia U.S.A.

This will no doubt cause a great stir when released , as this mystery of the three men in black and the sudden closing of his work by Bender. has been one of the greatest enigmas of F.S. research . and caused much speculation . evidently the evidence is not for the squeemish . we have said all along this was so. and feel the forecast made by the Editor. to Barker (see Gray Barkers Book. ) could well be more than enlightening . we shall see Editor.

would be Consciously or Unconsciously led to places of safety. perhaps not realizing what was to take place.

3. Certain key personal would be left and remain in places of great danger. but these would be protected by a great wall of white light which would completely protect them from all harm until their task was completed.

What part this place was to play in this great drama was not certain except for the dream which undeniably so far had come so true.

This last Christmas season, by a very strange turn of events. the Editor was led to assist in a Boy's Camp for the Y.M.C.A. and discovered that it was only a few miles from this very place of the dream .

Here he had strong feelings that another retreat should be held here by a few selected personal, this matter he placed before the ones he felt were those to participate. and again the leading came to go and seek guidance, but what was more amazing was that before this meeting began one of the ladies was handed a letter from a friend in the West . which had been going around from place to place before it was handed to her at the meeting. She did not open it. but at the close of the meeting did so and to the amazement of all, the contents were a direction from her friend telling her that she must go into the hills and climb a hill to which we would be led with this group to be in touch with a high being .from space.

So far this is as far as the events have gone. but a few things concerning this spot. it is in a earthquake area. hence the fires from the ground could well be a fact yet to take place. also fire risks in this area are common as it is heavy wooded terrain. , in fact whilst the Editor was there this year a fire broke out a few miles from this very house where Mr. Jones lives.

What will be the outcome of this dream? Will the rest of it come as vividly true as the latter parts. Is this a place of refuge ?

Who can tell?

At the time of writing this Jan 25th. 1962 this is the total of events to date. and this is given so that it will become evidence to produce should any further turn of incidents make the dream a further factual fulfilment .

A still further query arises. , What was the strange planet seen to be approaching the Earth . ? As we are very near what could be some strange astronomical events predicted for this year and those to follow, it could well be that this too is another portion of the dream which could well be true.

#### SPECIAL NOTICE RE TAPE RECORDINGS.

In the past it has been the practice and privilege of the Editor to loan out tapes of lectures etc. which were of a library consisting mainly of his personal tapes and others which were the property of the A.F.S.R.S. Due to the new set up of management it is now been necessary for all properties of the above society to be in the hands of the new committee thus relieving the Editor of the burden . However a number of the lectures are still keenly being sort after and the Editor has had to come to a decision re the use of such . and desires to make it widely known concerning those conditions regarding same. NEWSCLIPS. SIGHTINGS. AND QUOTES.  
FROM OUR MAIL.

+++++

The Latest copy of "Saucers, Space and Science" has quite a few items of more than usual interest. we quote the following.

MODERN MISSILE PAINTING FOUND IN RUINS OF HOME OF AUGUSTUS.

ROME. A.P.. Sleek interspace missiles in the days of Ceasar Augustus?. Impossible. Yet new diggings on Rome's famous Palatine Hill have uncovered a painting that could easily depict a Titan or an Atlas missile. The yellow ochre art work decoration is on a wall of a room that archaeologists think may have belonged to Augustus himself.

The modern -looking cylinder stand vertically on slender fins on some kind of pad. Its needle nose points skyward, as though awaiting the push of a button. The Mysterious object has been dubbed the missile of Augustus. Scientists say that whatever the symbolism the painting had, undoubtedly is lost forever in obscurity.

More important than this one object however, is the fact that the ancient hill may be yielding still another treasure.--- the house of Augustus, first Roman Emperor. (The Owen Sound Sunday Times Aug. 10. 1961)

NOVEL WRITTEN BY ADOLF EICHMANN REVEALED.

Adolf Eichmann has written a novel, the magazine Time and Tide says. John Gower, diarist in the weekly current affairs magazine, said the book apparently was written in 1953... seven years before his capture .. when Eichmann was in ARGENTINE.

It deals with FLYING SAUCERS. and expresses the belief that a person from another planet will arrive on earth and "bring peace to all mankind".

-----

SPACE CREATURES MAY EXIST ..

LONDON A.P. Space travellers reaching the moon and other planets may find living organisms that have been lying dormant for millions of years, says a British Medical Scientist.

Frozen by the tremendous cold, they could be brought back to earth, thawed and reruned to life, writes Dr. Audrey Smith of National.

Reviewing current techniques of cooling men and animals to temperatures around the freezing point, she wrote..

"We now have to distinguish between clinical death and biological death" Clinical death means that now animals can be frozen so that their heart beats, circulation and brain activity stop. But they can be thawed out and brought back to life unharmed. The time limit so far is about 2 hours. In support of her theory Dr. Smith made these points.

Many animal tissues can be frozen into indefinite suspended life after treatment with glycerol or other substances. Glycerol is produced internally by some insects and enables them to survive temperatures of 80 deg. below zero. There are insects and shellfish that can survive repeated freezing and thawing.

Scientists discovered recently that the larvae of an African insect survived complete drying out and then revives again when moisture is present.

NEWS

In its dried-out state it can stand immersion into liquid nitrogen at minus 300 deg. or five minutes exposure to temperatures of minus 400 deg. . . On some planets Dr. Smith said. extremes of temperature and drought may have developed over millions of years . . Living creatures could . during this time have evolved ways of surviving these extremes conditions in a state of suspended animation .  
In more favourable surroundings , with higher temperatures and with moisture present, as on earth , they would come to life again..

In relation to the above we commend our readers to reread the article by our correspondent. Don Alfredo Calef " Flight into Space" Vol 7. No 2. who touches on this very theory in relation to man's attempt to conquer space.

# PENTAGON CALLS UTAH SAUCER " BALLOONEY"

Air Force officers in the Pentagon said Wednesday they believed the unidentified flying object seen over Salt Lake Valley last week was either the planet Venus or a research balloon .

Advised of the Pentagon's report J. Harris , a pilot who first spotted the UFO over Salt Lake Valley last week , snorted.

" If the Pentagon thinks I have eyes good enough to see Venus at high noon they are really off the beam " he said.

" The object I saw was a saucer shaped thing, it had a grey color and moved under intelligent control . I got within three miles of it, and that is a lot closer than Venus is,

I have seen a lot of balloons too, and this was NO balloon. it just doesn't make sense for the Pentagon to make such statements . Balloons move with the winds and air currents. This thing flew directly against the wind which was 10 mile an hour in velocity and the object went at a terrific speed.

I'd like to talk to the Pentagon spokesman "

Investigation of the sighting was still under way by the Air Force UFO team at Wright Patterson Air Force Base. Ohio.

( Why waste further time if it was what they claim it was ?? )

FROM GRAY BARKERS SAUCERIAN BULLETIN .

## FURTHER DEVELOPEMENTS OF THE JOE SIMONTON CASE.

Our readers will remember we carried the story last year about this case in which Joe claimed he had been given a pancake or two in exchange for water. by the crew of a saucer . our own local papers carried the story . Gray relates how that Joe handed a pancake to his friend Judge Carter and it was arranged that they send it to NICAP. Major Keyholes organisation for investigation The press carried the story and built it up. and then Pressed NICAP for a statement re the analysis. Judge Carter waited ten days for the return of the pancake, but got nothing . not even an acknowledgement of the receipt of same. He sent a second letter . reminding them of the delay and why the silence and demanding an explanation or reply , Then things really started to get the run around.

ECHOES OF "AN AMAZING STORY"

Twelve months ago we published a story sent to us as factual, but because of its highly controversial matter we headed it. with the above title . We expected to receive a great deal of criticism regarding its claims but even now we are still receiving letters from folk all over the world who accept the claims made by this fellow. in fact the number of those who accept them are more than two to one. We publish one of the latest letters from our associate Kurt Kohler of Austria.

" Your article in your Jan. issue was very interesting ? I believe it,.....probably you would like to hear my comments I have to make on it. I consider the story at least 80 p.c. true.. You know in this country you hear reports about things now and then that went on during the last war and were top- secret at the time. So Hitler's survival is pretty sure. Besides I got information, that the Germans worked on rays of invisibility. They had it so far developed . that they could make cars and tanks invisible, We know of a V7, that was a helicopter with jets at the propeller- tips. Now V1 and V2 are pretty well known , but what about the numbers between ? . Another thing is: although there does not have to be a hole ~~through the~~ earth at the polar regions as some claim, I feel strongly , that there is something fishy about the poles and that it is not like the scientists try to tell us.

There might be a funnel like entrance to the earth's interior or just a huge crater- valley , but anyway, this not known and hard to reach abnormality has something to do with UFOs. And here I give you another clue Could it be, that Adamski broke up his lecture tour in Switzerland after he heard German talk and realised, that his Venusians had spoken at least partly German ?.

( I cannot agree with this view as I believe G.A. knew enough of German to distinguish it will stand to be corrected . Editor )

In my opinion . UFO research must be done without compromise . Whatever they are , monsters , criminals animals , ghosts , the truth should be found out. . Whoever believes in pretty Venusians, because he wants to believe in them is not an objective researcher . and whoever crams all his personal belief and worship in the UFO subject. likewise I realise , that the truth found out finally may not be acceptable for everybody .

Therefore I suggest . that UFO researchers of the world should exchange their information privately until proven or found to be wrong .

.....

A further letter from an associate in England. a man a degrees. strongly supports the claims of the Amazing story . and even gives a great deal of facts and data to prove it. However he does not desire publicity but we can assure our readers that at least the story has quite surprisingly received a more than expected. approval .

In relation to the author. several of our readers have asked or tried to guess or claimed to know who he is. but in keeping with the magazines policy where confidence is asked it is held. we therefore cannot give any clues as to the writer or his identity .

Regarding Kurt Kohler's invisible details. see following page.

On the previous page Kurt Kohler speaks of Germany developing rays of invisibility for various war purposes. Whilst we had heard rumours to this effect the facts were so meagre that it was impossible to make any factual statement in regard to same. However since the war and in relation with our Flying Saucer research work, the Editor has gathered from contacts in many places, bits and pieces of evidence which definitely point to the fact that the United States Have been experimenting along this lines and that they did actually come to the stage that they made invisible a United States ship, the results however were so detrimental to the ships personall that the whole thing was hushed up in no uncertain manner.

The results of this experiment was that men who came under its effects were not able to come back properly into "time" again. or the old dimension. others, remained, under it then faded out and back again, in fact actually scared some of their relatives or people who were present at the time. by the weird effects of their "now I'm here, now I'm not."

The <sup>1</sup>roject has not been fully abandoned but is so held in the tight wraps that little can now be found out about how much further they have gone. it was even suggested by some associates that may be they had applied to secret aircraft, and these were the UFO, which materialized and dematerialized, the "old" demat and mat "theory of earlier investigations.

The late worthy UFO Investigator M.K. Jessup who wrote several books on the subject, discovered a lot about this very thing and it could well be that this may have had a lot to do with his untimely and tragic circumstances of his death. for it was well known he just prior to his demise had been investigating something pretty deep.

Dr Albert Einstein touched upon this possibility in his Unified Field Theory, and some assert that he retracted this work because of concern for humanity.

A very learned Doctor insists that it is complete but that man is not "ready" for it, and shall not be until after World War III and it is said that the USA Navy FEARS TO USE IT FURTHER.

Actually the results of what experiments they did make was that a Destroyer was made completely "invisible" and all of its crew, this was while at sea in Oct. 1943, and to quote from our co workers article The Field was effective in an oblate Spheroidal shape, extending 100 yards (More or less due to Lunar position and latitude) out from each beam of the ship. ANY PERSON WITHIN THAT SPHERE became vague in form But he too observed those persons aboard that ship as though they too were of the same state, yet were walking upon nothing. Any person WITHOUT that sphere could see nothing save the clearly Defined shape of the ships hull in the ~~Water~~ of the officers and the crew of that ship are at present, mad as hatters. A few even yet are confined to certain areas where they may receive trained scientific aid when they go "~~Blank~~" or "Go ~~Blank~~ or get stuck". Going- blank is an after effect of the man having been within the field too much. however when they "get Stuck" it is nicknamed "Hell Inco-operated". The man can not move of his own volition unless two or more of those within the field go and touch him, quickly, else he will "FREEZE" and so on etc etc. it took one man six months to get

A ~~very~~ complicated piece of equipment had to be constructed in order to Unfreeze those who became " True Froze " or Deep Freeze subjects. Usually a " Deep Freeze " subject goes mad .stark raving, gibbering, if his freeze is far more than a day in our time , We could add more but we feel that despite the almost science fiction class of experiments it is very clear that man is not READY yet for some of the knowledge which he has discovered. Is it any wonder that the brothers from space tell us that repeatedly. and cannot and will not impart their higher knowledge to us. no wonder they treat us as kindergarten brothers.

Sad to say there are only a few left of these men . Most went insane. one just walked " through " his quarters wall in sight of his wife and child. . two went into The Flame ie. they" froze and caught fire. the only cure it seems is a " laying on of hands " .

Most of this information has been " discovered " by workers who have been working upon letters which were sent to Maurice Jessup just before his death and recieved by him in Miami Jan. 13. 1956. much more info. was had and given on the UFO also. but we feel that the above story is wierd e enough for the time . in what " man" has done to try and get to the stage of our UFO brothers. and as always unless they Know the whole truth ot os best left alone. when we are worthy of these great scientific truths of our heavenly Father, then we will be entrusted with them . and be able to do all these thibgs or more as the Great Master Jesus said we would.

I am well aware that many of our readers will be horrified at the above information but as Kurt Kohler says if we really want to find the truth we must not be afraid to investigate "any" avenue. Would you like more of this if so write the Editor who will relay the info. as desired.

#### TAPE RECORDINGS. ETC.

In future any tape recordings which are the property of the Editor will only be made into copies for the party concerned. NO MASTER COPIES WILL BE LOANED UNDER ANY CONDITION . WHATEVER .

Experiences during the past few years have been regreatbly full of most inconsiderate treatment of such Masters. in that. some have been deliberately kept and an inferior copy sent back . sometimes on very badly used tapes. Others in which the tapes have been kept so long that it has caused the greatest of inconvenience to the Editor and others who were needing them as well as other minor defects. This has come from those who in some cases were associates and supposed friendly workers.

Thank God there were those who did do the right thing and for which we give honour and thanks. but all the above makes it necessary that where tapes are wanted that . A Tape must be sent of the correct size for a copy to be made. or cost of tape current price to be sent plus postage. I feel that our readers will see the request is a fair and just one and will co-operate when needing tapes.

For all requests and tapes sent for copying must be sent to The Editor 22 Northcote St Kilburn .

For tapes held by the A.F.S.R.S. conditions of hiring or using must be had from them at the address of the Society . NOW. Box 1457 G.P.O. Adelaide.

is Sect. to answer . The judge demanded a personal reply from Keyhoe. and suggested the Keyhoe change the name of his organisation from National Investigation Aerial Phenomena. NICAP to, NSAP. NATIONAL SUPPRESSION OF AERIAL PHENOMENA. ? and said he may as well sent it to the Air Force and got the same run around. he suggests perhaps Keyhoe may be afraid to dabble in the contact stories. for fear of injury to his liason work with Congress. Actually investigators have all come up with a high record for Joe Simonton including the Judge. and as this is not the first time NICAP have given a contact story the run around. one wonders just what goes on there and WHO DO NICAP WORK FOR? for certainly one cannot deny there has been strong and open hostility to all Contactee stories. and when they rarely have deigned to carry a story it is always in a most sheering way . Surely if NICAP desire us to continue having confidence in its work, they will have to have a more openminded approach than they have to date.

It has been very apparent that Keyhoe is quite fanatical in regard to the silence of the Official sources. , but what does he hope to get out of Congress. ? What game is he playing . Major we will print your answer to these and other questions which have for some time now been disturbing many workers. who to date have been behind you. for it appears that your actions indicate you could well be a front for something bigger .

U.F.O. Over Tanganyka.

Our friend and Observer Mrs G. Rydon. reports per newsletter ..

" On the 5th. Dec. 1961, my son called me and two visitors from S.A. to see a very bright object, the size of Jupiter and same shape which was alongside of Jupiter. When I first saw it as it moved towards the S.E. , it was right above my house when we first observed it along side Jupiter. It moved deliberately across the sky; we watched it for about 10 min. when it grew dimmer and dimmer and then faded out. My friend, one had been a Squadron leader in the last war was astonished. This was the first time he had seen such phenomena. this was at 8.p.m. then on the second night at 7.p.m. 6th. Dec. my son spotted a much smaller object more or less in the same place, which appeared to be stationary . As he watched it. it started to move to the East . I saw it, then we watched it for a few minutes when it disappeared into a black cloud. It heartened me to know that out frineds are still near us. For over seas readers. Mrs Rydon l ves right on the lake-edge near My Kilimanjaro where many saucer sightings have been seen . some of which she related to us when she visited us last year. Thank you good friend. and for your very interesting letters of conditions in your disturned country .

SAUCER OVER YORKES PENINSULAR S.A.

After having rang the Weather Bureau. who told him it was nothing to tq with any of their balloons etc. upon their advice MrH. Ehrlich of Semaphore Park SA. rang the Editor. and related the following sighting .

He "says " His wife was up up 3 a.m. on Mon. Jan 29th. and noticed when looking out of the window which faced the sea. and over looks the gulf in the distance a gloden-flesh colored light winking and blinking. it appeared to be about 30 deg high . in the sky . and was it seemed to her over a town called Yorketown over the other side of the Gulf. She called her husband who also saw it very clearly. and then to their surprise they noticed another similar light

NEWS Cont.

the same size and color and performing the same blinking action. over another Town of Maitland some miles further along the peninsular .  
Mr. Ehrlich adds that he had much war experience and was able to distinguish most aerial objects and astral planets, but that he had never seen anything like this before. he said it lit up light a Very Light and was about the same size when one of those explodes.  
The whole observation was over six minutes but his wife became scared and insisted they pull the blind down .

.....  
Within a few weeks we have had bright moving lights over the Gulf. the week previous on two occasions a bright blue light was seen to cross the Gulf and pass over Adelaide. and could not be accounted for by any usual known object or phenomena. ....

# SECRET TALKS ON " SPACE MESSAGE"PROSPECTS.

ADVERTISER. Feb. 5th. 1962.

New York. The possibility of communications with other worlds is so real that America's National Academy of Science last year proposed and sponsored a secret conference to review the situation, says the " New York Times"

Leaders in Astronomy communications, animal behaviour, biochemistry, and nuclear physics, had attended the conference held at Green Bank . West Virginia, in November.

A number of scientists considered it a strong possibility that messages from beyond the solar system were impinging upon earth . The question they said, was how and where to look for them .

At least one of the scientists who attended the talks, Dr. P Morrison Professor of Physics at Cornell University, believed that, if the world survived its present crisis , a large part of human effort might go into trying to establish contact with remote civilisations.

On the other hand , a study had convinced the Professor of Physics at Harvard University. Dr. E. Purcell. that voyages between planetary systems were not practicable.

He is reported to have told a group of fellow scientists that inter stellar rockets " belong right where they are -- on cereal boxes ".

Some astronomers believe that if human beings made radio contact with other worlds it would save the world from self destruction , by turning men's minds outwards. ...

Is this not a frank admission of the acceptance of such facts that there IS life on other planets. ? Would they expend time and money on such a conference unless they had pretty good logical facts to go on . ??? Editor.

We have insisted that we will get doses of these admissions as we go along just as much as they desire to. " give out " so long as it does not upset the status quo of science. or their pride and pockets.

### NOTED WOMAN EVANGELIST VISITS ADELAIDE.

The week of the much discussed Planetary Conjunction brought to this city . at least a none to small luminary of Biblical Prophecy and of experience in Flying Saucer Phenomenon. Tall. slim, dignified Rev Eileen Bennett of Cal. USA. From the start she left now doubt in our minds of her very high spiritual qualities. , this was indeed a messenger of the Lord. who spoke as one so Spirit filled would be expected to speak, for without much blazing of trumpet. there was a deep consciousness that it had all the ring of the great mesengers of God who sake in terms of " THUS SAITH THE LORD "

The amazing part of her personality was the great self-effacement. of one so great , who was at times willing to be pushed into the back ground for it seemed so sad to see . one who had travelled so far , and with such a limited time in her itinery having to share with locals what should have been a wide field for her to give us all she had.

But. what little we did get . Ah. words fail to express the amount of real good honest prophetical knowledge she was able to expound from what was quite apparent an extreme store of knowledge and wisdom that was hers. Never did she for one moment lead us to feel that she claimed to have any greatness , no mouthing of words . How great I am . but a humble straight display of the greatness of all great souls. in the submergence of herself in the Master of whom she came to speak .

The first meeting . her welcome . a short brief message but full of power Her first public address. again emanating to all the hearers the spirit of her Master . The second at the Flying saucer society. although she only a share of 25 min among three speakers. it outshone all in its ability to put across so much in so short a period. The last who could forget it. the power and persuasion. the evidence of something more than just a speaker . and the proof in the great finale when requested to hold a short healing service. proved to be a never to be forgotten memorial From all sides and for days after the people were talking of the great hush and potential of manifest power . this coming from people of many mixed faiths and sects and creeds. A unity never felt before.

Rev. Eileen Bennett; we salute you. Child of God. Servant of the Great Master . come again and show our unbelieving , unfaithful hearts that God still lives . and is using His servants again today as of old. Your all too brief stay was tantalising in its effect. for it left us hungering for more.

FROM OUR REPORTER .

Editorial Note. The rather all too brief visit showed us how that Religion and the Flying Saucer work CAN work together most harmoniously and it is hope that at some future time the Rev. Eileen Bennett will come again as expressed by our ardent reporter above. At least she will not need to be eclipsed. , for such a message as she has needs a full campaign of ministry in which she can give us her all. and whilst grateful for the fragmen what will it be at a real feast . The Editor found so much in common that it seemd as though he was in the company of one he had known a long time. THANK YOU. and God Bless You, Rev Eileen Bennett..

## BOOK REVIEW.

" Flying Saucers Top Secret " Major Donal Keyhoe.

There have been many books on the U.F.O. subject. and some are extremely interesting in regard to stories and claims of actual contacts. Some are very factual and others fictional, and unfortunately the cover generally conveys one of authenticity, but inside many of the photos are faked.

It is enlightening however to find a book written with some truth, or the author has taken the liberty of quoting the names of people in important positions in work and in politics.

Having just finished reading Major Keyhoe's book. one is impressed by the fact that he deals very much with authority. Keyhoe has questioned practically every high ranking person, for or against the release of UFO information.

People in the Pentagon, Congress, Military, Navy. and Air Force, including the Security section of these Services. and his success in some departments has been most enlightening, such as coast guards, radar personnel and civilian pilots, ie if he was able to get to them first, for it seems that once the government officers contacted these people their whole story is stopped or some different view on the sighting was given.

Fortunately in the book Major Keyhoe's main aim is to fight for the truth on just such cases where belated reports have reached the public much distorted.

The Major works very hard to get Congressmen to force their rights in his desire to have the information released to the public. He believes if the Air Force has information, good or bad, it should be told to the public believing that their reaction to a sudden happening, would not be one of panic, as so many claim. Thank goodness the Western World still has this privilege, can we help our people by demanding information about our sightings, some of which are not balloons or meteors.

Colin Norris.

Vice President A.F.S.R.S.

Obs  
In the latest issue of the N.Z. Scientific space report, a very pro Adamski group, who idolising of this man almost claims his infallibility, contains quite a few remarks by his appointed successor Mr Carol A Honey, a person who no one seemed to have ever heard of before, and who suddenly appears on the scene and literally "takes over" G.As. work.

Mr Honey deigns to tell us all How to judge contact claims, although as far as we know he has never had such an experience, which makes us wonder how could one possibly be able to advise people on such a out of this world experience, when he has no personal guide to go by except that probably indoctrinated to him by the infallible G.A. His main claim to such being false is that if they, have, condemnations, judgements, creating fear, then it is not from space, perhaps this great teacher ??? will explain then the grand record of the prophets of old, who were sent just to do that when God's people had gone astray, and whose denunciations turned a wayward people often from error to righteousness. Where did their messages come from Mr Honey? from Hell or from heaven?.

Such a line of argument is so weak it hardly bears consideration if it was not for the fact that, so many gullable folk hang on such words as speaking with authority. This comes from the great error of placing too much confidence in some teacher who they place above human frailty, and make him as they have done G.A. one who cannot err in their eyes, the whole is the state of imbalance or fanaticism, and when any persons or groups get there, they are not worthy of the term scientific investigators, for everybody else MUST be wrong because they disagree with their idol.

This has been the case in point when their co-partners of the South Island stood up for the Mr. X. case and demanded it be investigated. Adamski says its wrong so, the North Island group expelled the South, as heretics. Now they have become two separate groups. Good on you South for sticking to your guns for an open minded approach. We ourselves do not claim all contactee stories are reliable, but we certainly wouldn't dare to set up a standard of separating the false from the true merely on grounds of the form of message they give, for even if the message IS one of denunciation etc. if the fruit it produces is to awaken a people from their lethargy to stir and do something about it, then as far as we are concerned the fruit produced has the ear marks of Divine Cosmic Law, which G.A. dispenses out at a set sum in his philosophies vide now the front of Mr Honey. We hope to give more of this matter in our next edition, meanwhile we again commend the South Island Group for its courage to break away, for now we feel that unencumbered by the fence built around their previous work, ie. only what G.A. approves or says, they may get some where, for the greatest sin of all is to LIMIT oneself in any approach in the search for truth.
